INDEX TO VOLUME 30

PAGE

Abdominal pain, experimental observations on localization of pain sense in parietal and diaphragmatic peritoneum; J. A. Capps and G. H. Coleman 778
Acidosis, cholera acidosis and its therapy; H. Tsurumi and T. Toyoda..... 797
Addis, T.: Blood pressure and pulse rate reactions, second paper..... 240
Renal function and amount of functioning tissue..... 378
—and Foster, M. G.: Specific gravity of urine..... 555
—and Shevky, M. C.: A test of capacity of kidney to produce a urine of high specific gravity..... 559
Alkali reserve in "roentgen-ray sickness"; R. Golden..... 629
Anemia, comparison of capillary and venous blood in pernicious anemia; W. W. Duke and D. D. Stofer..... 94
of chronic nephritis; G. E. Brown and G. M. Roth..... 817
Arsphenamin, elimination of arsenic in urine of syphilitic patients after intravenous injection of arsphenamin; C. Weiss and G. W. Raiziss.... 85
Arthritis, dietetic treatment of chronic arthritis and its relationship to sugar tolerance; A. A. Fletcher..... 106
Asthma, pathology of bronchial asthma; H. L. Huber and K. K. Koessler.. 689
Atropin, effect of, on gastric function, as measured by fractional analysis; B. C. Lockwood and H. G. Chamberlin..... 806
Auricular fibrillation: See under Heart

Bacon, D. K., Novy, F. O., and Eppler, H. H.: Factors in leukocytosis.... 229
Baehr, G., and Loewe, L.: Experimental reproduction of specific histopathology of influenza..... 307
Barach, A. L., Mason, W., and Jones, B. P.: Effect of administration of hypertonic salt solution on blood volume and certain related blood constituents 668
Beams, A. J., and Christie, C. D.: Estimation of normal vital capacity, with especial reference to effect of posture..... 34
Blood, alkalimetry of whole blood; acid fixing power of blood in renal disease; J. B. Rieger and H. A. Freund..... 517
count, an efficient and practical method for counting of red blood cells; T. R. Waugh..... 216
effect of administration of hypertonic salt solution on blood volume and certain related blood constituents; A. L. Barach, W. Mason and B. P. Jones..... 668
fragility, reticulation and blood chemistry; studies on nature of non-specific protein in disease processes; R. M. Greenthal and G. M. Brown 99
lipoids; relation of cholesterol and protein deficiency to basal metabolism; A. A. Epstein and H. Lande..... 563
pressure and pulse rate reactions, second paper; T. Addis..... 240
pressure, capillary blood pressure in arterial hypertension; E. P. Boas and S. Frant..... 40
pressure of normal Cantonese students; W. W. Cadbury..... 362
studies of cerebrospinal fluid and blood of syphilitic and normal persons, with special reference to immunity reactions and colloidal gold test on original and ultrafiltered fluids and serums; C. E. Nixon and K. Naito 182

Blood—Continued PAGE
study of erythrocyte curve at various ages and its relationship to hemoglobin curve; L. H. Mayers 478
vitally stainable reticulation and chromatic granules in erythrocytes preserved in vitro; O. H. P. Pepper 801
Boas, E. P., and Frant, S.: Capillary blood pressure in arterial hypertension 40
Bone marrow, intravitam bone marrow studies, preliminary report; description of a marrow trephine and experimental studies; L. M. Morris and E. H. Falconer 485
marrow, intravitam bone marrow studies; survey of clinical field; L. M. Morris and E. H. Falconer 490
Book Reviews:
Bacteriology: General Pathological; Intestinal; A. I. Kendall 131
Hay Fever and Asthma; W. Scheppegrell 131
Manual of Clinical Laboratory Methods; C. L. Cummer 131
Nerve Exhaustion; M. Craig 132
Principles of Therapeutics; O. T. Osborne 407
Protein Therapy and Nonspecific Resistance; W. F. Petersen 408
Roentgen-Ray Dosage in Treatment and Radiography; W. D. Witherbee and J. Remer 688
Vitamins; H. C. Sherman and S. L. Smith 131
Boyd, T. E., Pearcy, J. F., and Carlson, A. J.: Studies on visceral sensory nervous system; reflex control of cardia and lower esophagus in mammals 409
Brain tumor, unusual paucity of symptoms in some cases of pontocerebellar tumors, diagnostic difficulties; A. Gordon 606
Bronchospirochetosis in China; E. C. Faust 343
Brown, G. E., and Roth, G. M.: Anemia of chronic nephritis 817
Brown, G. M., and Greenthal, R. M.: Studies on nature of nonspecific protein in disease processes; blood fragility, reticulation and blood chemistry 99
Buckstein, J.: Intestinal digestion of connective tissue 761
Burgess, H. W., and Means, J. H.: Basal metabolism in nontoxic goiter and in borderline thyroid cases 507

Cadbury, W. W.: Blood pressure of normal Cantonese students 362
Capps, J. A., and Coleman, G. H.: Experimental observations on localization of pain sense in parietal and diaphragmatic peritoneum 778
Carlson, A. J., Boyd, T. E., and Pearcy, J. F.: Studies on visceral sensory nervous system; reflex control of cardia and lower esophagus in mammals 409
Cerebrospinal fluid, studies of cerebrospinal fluid and blood of syphilitic and normal persons, with special reference to immunity reactions and colloidal gold test on original and ultrafiltered fluids and serums; C. E. Nixon and K. Naito 182
Chamberlin, H. G., and Lockwood, B. C.: Effect of atropin on gastric function, as measured by fractional analysis 806
Cholera acidosis and its therapy; M. Tsurumi and T. Toyoda 797
Christie, C. D., and Beams, A. J.: Estimation of normal vital capacity, with especial reference to effect of posture 34
Coleman, G. H., and Capps, J. A., Experimental observations on localization of pain sense in parietal and diaphragmatic peritoneum 778
Connective tissue, intestinal digestion of; J. Buckstein 761

Diabetes, psychologic tests applied to diabetic patients; W. R. Miles and H. F. Root 767
Digitalis, absorption of, in man; C. Eggleston and J. Wyckoff 133
Duke, W. W.: Interpretation of Wassermann reaction 531
—and Stofer, D. D.: A comparison of capillary and venous blood in pernicious anemia 94

Edwards, D. J., and Wilson, M. G.: An analysis of some of the factors of variability in vital capacity measurements of children 638
Eggleston, C., and Wyckoff, J.: Absorption of digitalis in man 133
Electrocardiogram, interpretations of initial phases of electrocardiogram with special reference to theory of "limited potential differences"; T. Lewis 269
Electrocardiography and prognosis; significant T wave negativity in isolated and combined derivations of electrocardiogram; F. A. Willius ... 434
electrocardiographic study of 50 patients during operation; W. G. Lennox, R. C. Graves and S. A. Levine 57
Eppler, H. H., Bacon, D. K., and Novy, F. O.: Factors in leukocytosis 229
Epstein, A. A., and Lande, H.: Studies on blood lipoids; relation of cholesterol and protein deficiency to basal metabolism 563
Erythrocytes, observations on vitally stainable reticulation and chromatic granules in erythrocytes preserved in vitro; O. H. P. Pepper 801
Esophagus, studies on visceral sensory nervous system; reflex control of cardia and lower esophagus in mammals; A. J. Carlson, T. E. Boyd, and J. F. Pearcy 409

Falconer, E. H., and Morris, L. M.: Intravitam bone marrow studies, preliminary report; description of a marrow trephine and experimental studies 485
Intravitam bone marrow studies; survey of clinical field 490
Faust, E. C.: Bronchospirochetosis in China 343
Fletcher, A. A.: Dietetic treatment of chronic arthritis and its relationship to sugar tolerance 106
Foster, M. G., and Addis, T.: Specific gravity of urine 555
Frant, S., and Boas, E. P.: Capillary blood pressure in arterial hypertension 40
Freund, H. A., and Rieger, J. B.: Alkalimetry of whole blood; acid fixing power of blood in renal disease 517

Glucose, effect of administration of glucose in condition following total extirpation of liver; F. C. Mann and T. B. Magath 171
Goiter, basal metabolism in nontoxic goiter and in borderline thyroid cases, with particular reference to its bearing in differential diagnosis; J. H. Means and H. W. Burgess 507
Golden, R.: Alkali reserve in "roentgen-ray sickness" 629
Gordon, A.: Unusual paucity of symptoms in some cases of pontocerebellar tumors, diagnostic difficulties 606
Grant, S. B.: Tetany, a report of cases with acid-base disturbance 355
Graves, R. C., Levine, S. A., and Lennox, W. G.: An electrocardiographic study of 50 patients during operation 57
Greenthal, R. M., and Brown, G. M.: Studies on nature of nonspecific protein in disease processes; blood fragility, reticulation and blood chemistry 99

Hart, T. S.: Quinidin in auricular fibrillation, with some observations on its use in combination with digitalis 593
Hay-fever, mechanism of hay-fever; F. M. Rackemann 221
H'Doubler, F. T., and others: Studies in Kottmann reaction for thyroid activity 386
Heart, clinical studies of quinidin; alterations in cardiac mechanism after administration of quinidin to patients with auricular fibrillation with consideration of certain toxic effects of the drug; R. L. Levy 451
delayed conduction through right and left branches of atrioventricular bundle; H. M. Korns 158
electrocardiographic study of 50 patients during operation; W. G. Lennox, R. C. Graves and S. A. Levine 57
electrocardiography and prognosis; significant T wave negativity in isolated and combined derivations of electrocardiogram; F. A. Willius 434
interpretations of initial phases of electrocardiogram with special reference to theory of "limited potential differences;" T. Lewis 269
mechanism of development of nonbacterial, chronic cardiovalvular disease; W. Thalhimer 321
quinidin in auricular fibrillation, with some observations on its use in combination with digitalis; T. S. Hart 593
Hemoglobin, study of erythrocyte curve at various ages and its relationship to hemoglobin curve; L. H. Mayers 478
Hodgkin's disease treated with roentgen rays for 6 years; K. R. McAlpin and W. C. von Glahn 286
Hoover, C. F.: Functions and integration of intercostal muscles 1
Huber, H. L., and Koessler, K. K.: Pathology of bronchial asthma 689
Hun, E. G., and Sanger, B. J.: Glucose mobilization rate in hyperthyroidism 397
Hyperthyroidism: See under Thyroid

Influenza, experimental reproduction of specific histopathology of influenza; G. Baehr and L. Loewe 307
Intercostal muscles, functions and integration of; C. F. Hoover 1
Intestinal digestion of connective tissue; J. Buckstein 761

Jones, B. P., Barach, A. L., and Mason, W.: Effect of administration of hypertonic salt solution on blood volume and certain related blood constituents 668

Kidney disease, alkalimetry of whole blood; acid fixing power of blood in renal disease; J. B. Rieger and H. A. Freund 517
function and amount of functioning tissue; ratio: urea in 1 hour's urine, urea in 100 c.c. of blood, after giving urea and water; T. Addis 378
test of capacity of kidney to produce a urine of high specific gravity; T. Addis and M. C. Shevky 559
Koessler, K. K., and Huber, H. L.: Pathology of bronchial asthma 689
Kopeloff, N.: Variations in aliquot fractions of gastric contents 118
Korns, H. M.: Delayed conduction through right and left branches of atrioventricular bundle 158
Kottmann reaction for thyroid activity; W. F. Petersen, F. T. H'Doubler, S. A. Levinson and J. E. F. Laibe 386

Laibe, J. E. F., and others: Studies in Kottmann reaction for thyroid activity 386
